## Natural cleaning products from corn, sunflower, sugar and soy.

### Multi-purpose Cleaner

A concentrated, non-phosphate, non-flammable, non-abrasive, general purpose cleaner composed of water-soluble cleaning agents and biodegradable synthetic detergents. Ideal for cleaning all surfaces not damaged by water.

### Heavy Duty Cleaner

For tough, greasy and hard to clean areas. Suitable for removing grease, oil, tar and many other difficult to remove soils, while being safe on paintwork and non-hazardous to use.

### Glass Cleaner

A highly concentrated glass and ultra mild surface cleaner that dissolves, suspends, and removes soil from mirrors, windows, glass and any other surface not damaged by water.

### Bathroom Cleaner

Removes soap scum, body oil, lime, water scale and rust deposits from porcelain, tile, ceramic tile and fibreglass surfaces. Polymer additives in the product repel soils and keep surfaces cleaner for longer.

### Neutral Floor Cleaner

A pH neutral floor and hard surface cleaner that can be used to clean walls or mop floors including high polish flooring and other hard surfaces to remove oils, greases, hydrocarbons and heavy soiling.

### Make the switch to a greener clean!

Earth Renewable cleaning products are certified by **Good Environmental Choice Australia (GECA)** to meet the most stringent requirements for biodegradability, safety and quality control.

Every ingredient in this Australian-made cleaning product range is derived from natural, biodegradable, renewable and sustainable botanical resources. Safe for all animal life, aquatic life and plant life, and especially recommended for people who suffer from allergies, headaches or skin and lung irritations when using toxic cleaning products.

Earth Renewable cleaning products use a portion control system to minimise waste and maximise savings. The concentrated products are delivered in recyclable packaging, and are space-saving and lighter than conventional (pre-diluted) cleaning products thus reducing the amount of greenhouse gases (CO<sub>2</sub>) produced during transport by as much as 90%.

**There's no "green washing" in these cleaning products!**

### Super concentrate

Each refill bottle makes up to 110 spray bottles. Add your own water, reduce packaging waste and transport emitted CO<sub>2</sub>, plus save on delivery costs!

### Economical to use.

## Buy in bulk and save!

Refill your spray bottle from just 44¢ per bottle.

See full price list on pages 26 & 27

Refills from  
**44¢**  
per spray bottle

CLEANING PRODUCTS All prices include GST.

### Refillable bottles. Just BYO water!

Up to 90% of the cleaning chemicals we buy are just water.

Earth Renewable cleaning products are formulated without water to deliver a 90% reduction in freight and storage costs. Adding your own water on-site not only reduces packaging waste but provides a 90% reduction in transport emitted CO2.

Your first order will include everything you'll need to dilute your own cleaning products – except the tap water! We'll supply the concentrated cleaning product/s in 750ml bottles with a 4ml portion-controlled pump, plus the empty labelled 750ml spray bottle/s with trigger nozzle, and material safety data sheets (MSDS).

Your subsequent orders will be only for the 750ml concentrate bottles. You can refill and reuse the spray bottles – they should last for many years.

At the end of their useful life all of the materials can be disposed of by placing into normal commercial or domestic recycling streams.

**Reduce, refill, reuse and recycle!**

**Refill from concentrate. Reuse the spray bottles. Reduce packaging waste.**

#### New improved system

## Each bottle of concentrate will refill up to 110 spray bottles

**What's new?** The old 650ml sachets have been replaced with 750ml bottles of super concentrate. No need to mix or store 5 Litre stock solution bottles. Portion-controlled 4ml pump for easy and accurate dilution ratios without jugs and measures.

Refills from **44¢** per spray bottle

**Just add water and save!**

**First use**  
Attach the pump to the bottle of super concentrate.

**Step 1**  
Fill a 750ml spray bottle to the base of the neck with cold tap water.

**Step 2\***  
Add 2 pumps (2 x 4ml) of the super concentrate into the spray bottle.

**Step 3**  
Screw on the trigger nozzle, and invert the spray bottle twice to mix.

\* Note: **Floor Cleaning:** Add 2 pumps (2 x 4ml) of Neutral Floor Cleaner to 7.5 litres of water in a mop bucket.  
**Glass Cleaning:** Add 1 to 2 pumps (4ml to 8ml) depending on the amount of soiling  
**Heavy Duty Cleaning:** Add 2 to 4 pumps (8ml to 16ml) depending on the amount of soiling.
